OBJECTIVE COLLECTORS

**HANIN FAISAL
ABDUHU AMER
KHALED KHOZAIGI
SABURAH SYED
ALJAWHARAH ALANAZI
RUMAN BHATTI**

OBJECTIVES

MAJOR OBJECTIVES

1. Discuss acute vs Chronic Inflammation.
2. The pathophysiology of chronic inflammation including its mediators and components.
3. Understand what ESR and CRP are and know the differences between them.
4. Enterococci faecium and faecalis, their clinical significance, their characteristics, their treatment and their resistance.
5. Mechanism of action and mechanism of resistance of ceftriaxone.
6. What is the mechanism of resistance against major antibiotics including penicillins, vancomycin, and tetracyclines.
